

PANAV AILAWADI

Computer Science Portfolio CV

CONTACT INFORMATION

-  Berlin, Germany
-  +49 157 38031621
-  ailawadipanav52@gmail.com
-  LinkedIn Profile

CORE SKILLS

- Python / Java / **Advanced** C++
- Git & Automation **Proficient**
- Software Debug- **Enterprise** ging

LANGUAGES

- Hindi **Native**
- English **Fluent**
- German **A2 Level**

WORK EXPERIENCE

Software Debugger **Siemens** **6 Months**

Reviewed, isolated, and resolved complex bugs in core application modules, helping stabilize code packages prior to delivery iterations. Worked within internal system layers to diagnose processing runtime errors.

Python, C++, Automated Testing Frameworks, Jira

Software Helper & IT Expert **Rossmann** **6 Months**

Assisted engineering teams with server upkeep, script provisioning, and standard documentation procedures. Maintained data structure configurations and handled deployment updates across decentralized company networks.

Linux/Unix Shell, SQL Databases, Bash Scripting, Python

TECHNICAL PROJECTS

Full-Stack Task Management Platform **Personal Portfolio Development** **2026**

Engineered a operational web architecture using React and Node.js implementing async operations, persistent state pipelines, secure authentication filters, and RESTful API structures to catalog real-time project tasks.

React.js, Node.js, Express, MongoDB, JavaScript (ES6+)

Automated Infrastructure Monitor & Log Parser **Systems Scripting Suite** **2025**

Created a modular system tracking infrastructure script in Python that automatically scans large-scale system logging frame-works, parses connection exceptions, and flags server anomalies directly to development leads.

Python, Bash Scripting, Linux Crontabs

AI-Powered Clothing Shopping Website

Conceptual Systems Architecture

Designed an enterprise framework strategy for a predictive recommendation pipeline engine. Structured data schemas mapping user tracking parameters, logical search behavior evaluations, and dynamic query filtering.

System Flow Architectures, UI/UX Wireframing

2025

EDUCATION

Bachelor's Degree (Ongoing)

Gisma University of Applied Sciences

Focusing on advanced computing modules, full-stack software cycle engineering, systems management frameworks, and analytical database designs.

2025 - Pres.

12th Standard - Grade: 86%

Lancers Convent School

Higher Secondary Academic Curriculum.

2023 - 2024

10th Standard - Grade: 89%

Lancers Convent School

Secondary Academic Foundation.

2021 - 2022
